

**ANIKET AVINASH JAMBHALE**

**Cell:** 9146170877

**Email:** aniket.jambhale92@gmail.com

## OBJECTIVE

To obtain an exciting, enjoyable, dynamic and upwardly mobile position in an ethically sound company that provides the opportunity to apply a combination of information technology and business skills.

## PROFILE

- Graduation in B.Sc. (I.T.).
- Over 4+ years of progressive IT experience.
- Currently, associated with Accenture solutions private limited as an Application development senior analyst.
- Excellent interpersonal, Presentation and communication skills.
- Result oriented, self-starter and able to work with minimum guidance.

## PROFESSIONAL SUMMARY:

- Over **4+ years** of progressive IT experience with years of expertise in **Splunk, Python, SQL, ELK, Tableau, Core Java and Linux**. Monitoring, Data Analytics performance tuning Troubleshooting and Maintenance.
- Worked on Analytics using Splunk on data from various domains like **Retail, Telecom and Financial Infrastructure**, Storage Devices, Network and security devices.
- Expertise in Installation, Configuration, Troubleshooting and Maintenance of Splunk.
- Creating accurate reports, Dashboards, Visualizations and Pivot tables for the business users.
- Installing and using Splunk apps for **Windows** and **Linux**.
- Knowledge about Splunk architecture and various components (indexer, forwarder, search head, deployment server), Heavy and Universal forwarder, License model.
- Extensive experience and actively involved in Requirements gathering, Analysis, Reviews.
- Experience with **Splunk Searching** and **Reporting** modules, Knowledge Objects, Administration, Add-On's, **Dashboards**, Clustering and Forwarder Management.
- Created and Managed Splunk **DB connect** Identities, Database Connections, Database Inputs, Outputs, lookups, access controls.
- Expertise Splunk query language (SPL) and Monitored Database Connection Health by using Splunk DB connect health dashboards.
- Worked on log parsing, complex Splunk searches, including external table lookups.
- Experience on use and understand **Regular expression** and **SED** to extract the fields from the log files.

- Experience on Splunk search construction with ability to create well-structured search queries that minimize performance impact.

## **EXPERIENCE: 4 Year and 10 Months of Experience in IT Industry**

### **Accenture solutions private limited**

From 15 June, 2018 till date at Bengaluru

**Designation:** Application development senior analyst.

### **PROJECTS WORKED ON**

Telecommunication

### **KEY SKILLS:**

Splunk, Python, AWS, Tableau, ELK, Docker

### **KEY RESPONSIBILITIES:**

- Designing and maintaining production-quality Splunk **dashboards**.
- Creating and customizing **Splunk** applications, **searches** and **dashboards** as desired by IT teams and business.
- Responsible to Configure and develop **complex dashboards** and reports on Splunk.
- Created dashboards to monitor entire flow of transaction by **correlating** across multiple data sources.
- Implemented **BI use cases** to observe user behavior, revenue details, transaction etc.
- Scheduled daily and weekly reports for business use.
- Created **complex query** with Splunk commands like **join** and **transaction** etc.
- Created custom dashboards to perform **drilldown** on different data sources.
- Prepared, arranged and tested Splunk search strings and operational strings.
- Helped the client to setup **alerts** for different type of errors.
- Played a major role in understanding the logs, server data and brought an insight of the data for the users.
- Involved in assisting offshore members to understand the use case of business.
- Assisted internal users of Splunk in designing and maintaining production-quality dashboard.
- Implemented BI use-cases by integrating **Tableau with Splunk**.
- Created valuable dashboards with **Tableau**.
- Created **AWS** instance and implemented Splunk environment.
- Having knowledge of AWS service such as **S3, Athena, QuickSight** and **Lambda function** with **Python** etc.

## **Smartcirqls InfoTech Pvt. Ltd**

**(The sole Splunk distributor for the Indian subcontinent)**

From 14 Nov, 2016 to 22 June, 2018 at Mumbai

**Designation:** Technical Project Lead.

### **PROJECTS WORKED ON**

1. Large Indian Telecom – IT operations, Network Operations and Application Management.
2. Mobile and Digital communications.
3. Large Indian Bank.
4. Renewable Energy Company – Real Time monitoring of Wind Turbines across India.

### **KEY SKILLS:**

Splunk, Python, JavaScript, Linux scripting

### **KEY RESPONSIBILITIES:**

- Expertise with **Splunk** UI/GUI development and operations roles.
- Configured and developed **complex dashboards** and **reports** on Splunk.
- Expertise in creating and **customizing Splunk applications**, searches and dashboards as desired by IT teams and business.
- Created dashboards to monitor entire flow of transaction by **correlating** across multiple data sources.
- Created **Automation scripts** to perform server level operation and to minimize the redundant work.
- Developed and integrated SMS sending **python script** for Splunk SMS alert.
- Built custom use-cases for **correlating across AD** and HR **Database table**, to track anomalous user behavior.
- Created and configured KPI's in Splunk IT Service Intelligence (**ITSI**).
- Developed KPI's associated with a service and built **glass tables**.
- Configured services with corresponding **KPI** metrics in Splunk ITSI Application.
- Configured Splunk for dynamic analytics and machine data indexing.
- Hands on development experience in customizing Splunk dashboards, visualizations, configurations, reports and search capabilities using customized Splunk queries.
- Installation of **Splunk Enterprise, Splunk forwarder, Splunk Indexer**, Apps in multiple servers (Windows and Linux) with automation.
- Install and maintain the Splunk adds-on including the **DB Connect**, Active Directory, **LDAP** for work with directory and SQL **database**.
- Configured **clustered** indexer and search head.
- Configured License master, Deployment server, Cluster master and Deployer.
- Configured **HEC** to collect data from non-forwarder server.
- Configured Splunk forwarders to receive data over network ports.
- Integrated **LDAP** authentication method, mapped user groups with relevant roles.

- Experience on use and understand **Regular expression** and **SED** to extract the fields from the log files.
  - Installed and configured Splunk **Add-on** for Cisco ASA and CISCO ACI App.
  - Performed **troubleshooting** and/or configuration changes to resolve Splunk integration issues.
  - Responsible for **documenting** the current architectural configurations and detailed data flow and Troubleshooting Guides for application support.
  - Handling deployment activities for various developments and testing environments.
  - Involved in Reviews, Meetings and Teleconferences with clients.
- 

### **Capgemini India Pvt. Ltd**

From 31 July, 2014 to 8 Nov 2016 at Mumbai

**Designation:** Software Engineer.

### **PROJECTS WORKED ON**

**Client:** Starbucks Coffee Company.

Team size of 15

### **Key Skills:**

Splunk, PowerShell, IIS Administration, SQL, ASP.NET

### **KEY RESPONSIBILITIES:**

- Configured Forwarder on Linux and Windows machine to monitor files, network data and scripted input.
- Implemented Splunk architecture in standalone and large scale distributed environment.
- Created dashboards, Alerts and Reports.
- Developed and integrated custom Splunk alert action (custom script and add-on).
- Configured Splunk DB connect app for DB access and Splunk input.
- Implemented BI use cases to observe user behavior, revenue details, Transaction etc.
- Created automation scripts using PowerShell.
- Basic installation, configuration and managing IIS 6 and 7, 7.5.
- Administration and monitoring entire web infrastructure and troubleshooting any issues.
- Installed and renewed certificates on the servers.
